Contactless Identification
With Face ID 3, all you need is one look, and you're ready to go. Facial recognition makes it easy for you to verify yourself without having to free your hands.

Accurate Verification
Face ID 3 enrolls vivid images of the user and stores them as a large file for a more accurate face verification.
Combine Your Verification Methods
Opt for the combination of verification methods to get an added confirmation of identity. A Face + RFID / Password verification leaves almost no room for security breaches!

Multi-Verification Methods
You have multiple verification options with Face ID 3. Verify yourself using face, card, or even by password.

Manage Your Data Easily
Administration is easy with the Ingress software application. Ingress allows you to remotely manage door activity of all con- nected terminals, while containing time attendance functions for attendance monitoring.

Time Zone Settings
Face ID 3 now has an additional feature of 50 Time Zones for you to control and organize authorized access at your workplace.

Multiple Communication Methods
Sync Face ID 3 with a PC using one of the many available connections: TCP/IP, RS232, RS485, USB flash disk or 26-bit Wiegand input-output.

Get Your Extra Features Here
Full colour touch screen, short messaging, work codes, photo display after verification. These are among our many additional features that you get to enjoy with Face ID 3.
